About Us

SEEK Token LLC. was founded by a professional, diligent, and experienced team committed to helping eliminate fraud and corruption from the crypto space. The project was born out of personal loss by its development team and out of necessity for the crypto community. SEEK aims to use security, education, community, transparency, and stability to help DeFi become what it was made to be, a decentralized digital currency free from the constraints of fiat. To help fulfill our goals, SEEK Token LLC has become a company focused on education, Know Your Customer (KYC), and auditing services.

About Us

Mission Statement:

- Security, education, community, transparency and stability

Goals:

- Increase security in cryptocurrency investment by providing unparalleled KYC and Auditing services
- Establish, promote, and disseminate educational material on cryptocurrency investments
- Establish a community of likeminded cryptocurrency projects
- Maintain transparency to the investors of SEEK Token LLC and our partners
- Create and maintain a safe, stable, and sustainable product for our investors

Team

Our dedicated team brings a combined quarter-century of experience in the banking, lending, and financial sector which is vital to our mission.

KYC

Know Your Customer (KYC) services help minimize fraudulent activities by serving as a means to hold developers accountable for their actions.

SEEK offers the most stringent KYC services in the crypto space. This is provided quickly, securely, and at a fraction of the cost of most providers. This promotes safety through accountability.

Audits

SEEK's audit process is a combination of digital review and in-depth personal human element investigation which has proven valuable and indispensable. While scanners, code, contract, and hard copy reviews are extremely important, oftentimes it's the unpredictable human element that is in need of the most focus and investigation. That detail sets SEEK apart and ahead of the rest of the industry. This unique process was built and designed for investors, by investors.

SEEK Token

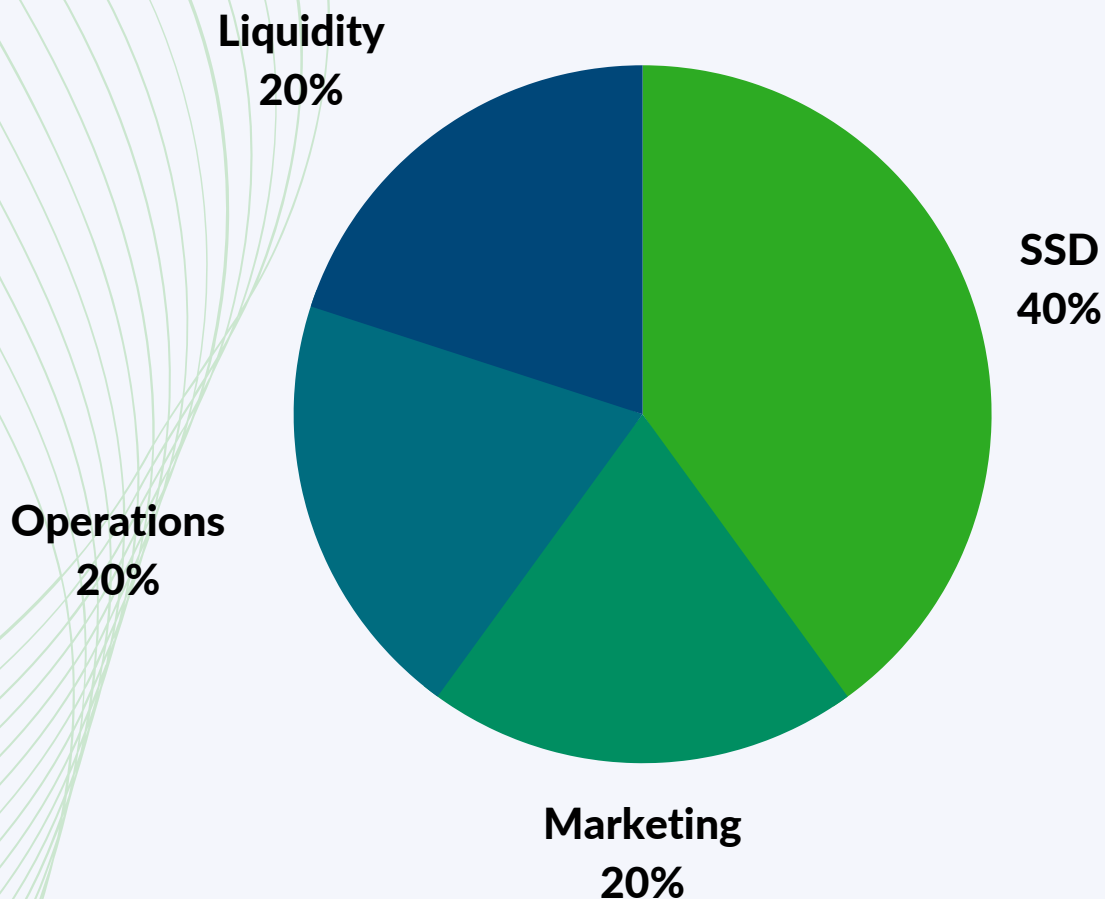

SEEK Token serves as a means to reward the shareholders of SEEK Token LLC. The majority of taxes along with most of the revenue generated from the sales of KYC and auditing services are returned to the token holders via the SEEK Safe Drop (SSD)

 - 100,000,000
- **Circulating Supply:**
 - 100,000,000

10% Buy/Sell Tax

SSD

40% of taxes along with 20% of the revenue generated from the sales of KYC and auditing services are returned directly to the token holders via the SEEK Safe Drop (SSD) utility.

This revenue is collected and used to purchase a combination of SEEK tokens and tokens from a featured project(s) within the space. These rewards are safely dropped to SEEK holders.

The frequency of the SSD is ultimately determined by volume. Our goal is to airdrop two times per month.

In order to qualify to receive the featured token(s) SSD, you must be a top 300 wallet. The number of holders receiving SEEK will depend on the value of tokens being dropped. This threshold will be reviewed on a case-by-case basis. The payout is based on holder percentage, so the more SEEK tokens you own, the more tokens you will receive in the SSD. The top holder wallet along with a few other business wallets are excluded from the SSD.

SSD

***The number of holders receiving SEEK will depend on the value of the tokens being dropped. This will be a volume dependent calculation each month.**

NFTs

SEEK's first NFT series is titled Fideles Sectatores. They are a randomly minted series of 2500 total.

- 1500 Wooden with 1X Multiplier
- 625 Green with a 2X Multiplier
- 350 Red with a 5X Multiplier
- 25 Purple with a 10X Multiplier

50% of the purchase price of each NFT is collected and utilized to purchase SEEK Token. These tokens are sent to NFT holders based upon multiplier of their NFT holdings. These rewards are based upon NFT sales volume.

These NFT will also serve as entrance passes to future metaverse projects that SEEK is involved with.

SEEK-O-System

Networking and partnerships are essential in this vastly changing volatile market. We have developed collaborative relationships with other projects and intend to grow our ecosystem to eliminate fraud and corruption in cryptocurrency. This will in turn enable us to expand the reach of our educational program. Joint collaborative projects are appearing on the horizon and have unlimited potential.

At SEEK Token LLC, we believe that diversification in investment leads to a more stable portfolio. We want our token holders to have likeminded, safe projects in which to invest. As a holder benefit, we have created the SEEK-O-System (SOS) as a means to organize and cross-promote similar minded projects within the space. This allows our partners and friends a centralized location to "shill" their projects to investors from each community. Each of these projects have undergone a rigorous vetting process which ensures a high degree of safety to our investors.

Self-Assessment of Sophisticated Purchaser

SEEK tokens should be undertaken only by individuals, entities, or companies that have significant experience with, and understanding of, the usage and intricacies of cryptographic tokens, like Binance Coin (“BNB”), and blockchain based software systems. Purchasers should have a functional understanding of storage and transmission mechanisms associated with other cryptographic tokens. Further purchasers will undertake self-assessment on their knowledge and understanding of financial contracts, smart contracts, and financial derivatives. Only individuals, entities, or companies that understand fully the functionalities, capacities and constraints of the SEEK token should proceed and purchase it.

Price Volatility Disclaimer

The SEEK tokens do not represent any formal or legally binding investment. Cryptographic tokens that possess value in public markets, such as BNB, have demonstrated extreme fluctuations in price over short periods of time on a regular basis. Purchasers should be prepared to expect similar fluctuations. Such fluctuations are the result of supply and demand forces experienced by token users. By purchasing SEEK tokens, users expressly acknowledge and represent that they fully understand that the token may experience volatility in pricing and will not seek to hold the issuer liable for any losses or any special, incidental, or consequential damages arising from, or in any way connected to, the purchase of SEEK token.

Liability Disclaimer

Purchasing SEEK token entails a number of risks concerning its valuation, safekeeping, and continuous access to technical infrastructure (access to the Internet, online exchange account, etc.). Users expressly acknowledge and represent that they fully understand that the token may experience volatility in pricing, liquidity, technical access, data breaches and will not seek to hold the issuer liable for any losses or any special, incidental, or consequential damages arising from, or in any way connected to, the purchase of SEEK token. As such the issuer will not be held liable for any damages that may arise from any lawful actions it undertakes. The lawful actions will be determined based on the legislation in force of the jurisdiction of the issuers corporate registration.

Taxation Disclaimer

When purchasing the SEEK token users acknowledge that they fully understand that they are solely responsible for any tax reporting and payment, levies, or similar dues to tax authorities of their respective jurisdiction. Users will not seek to hold the issuer liable for any losses or any special, incidental, or consequential damages arising from, or in any way connected to, the purchase of SEEK token as far as taxation issues are concerned.

Users acknowledge that they fully understand that the details of their dealings, accounts, and trading history information may be shared with the tax and law enforcement authorities that request them via legal and legitimate means in connection to a criminal activity.
